#### Emmett Letter.

Born to the wife of J. F. Buckley an eleven pound daughter.

The good work of the missionaries is apparent everywhere. Our people will accord them a hearty welcome should it ever again be their privilege to do so.

Our water system is about complete. A 3-inch main extends the length of the business part of the village with 13 inch hydrants at suitable intervals. Three-quarter inch hydrants here and there afford easy opportunity for getting domestic supply. A hand engine with abundant hose is expected daily to connect with hydrants or draw from wells and cisterns for fire protection. The new tank will be elevated upon a tower and then Emmett will be ready to invite the inspection by our neighbors of as handsome a system of water works as any town of our size in the state can show.

# WHY "No. 9" ARE HEELER & WILSON'S No. 9 SEWING MACHINES

POPULAR?  
BECAUSE LADIES  
BUY THEM LIKE THEM  
AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair. We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

Send for our illustrated catalogue. We want dealers in all unoccupied territory.
